3 & 4 Wing Floor

Single Wing Wall

All blade racking requires the addition of adhesive Price Channels and Price Tickets.

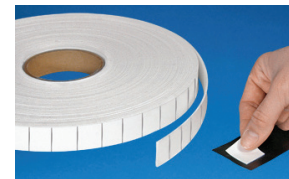

A	3RCK209	Price Channels, adhesive, pkg of 100
B	3STN420C	Price Tickets, paper, CANADIAN
	3STN420U	Price Tickets, paper, USw
C	3SGN800	Tape, Foam, Double-Sided, 1" x 1", roll of 650 squares *

Problems with Adhesion

Plastic price channels (**A**) have an adhesive backing strip. For them to stick well, they must be pressed down firmly onto a clean cardboard insert on the first application. Re-application once the channel has fallen off usually doesn't work. Still, several have found that the channels aren't sticking to some of their displays. If that's the case, please use the double-sided foam squares provided (**C**). We'll improve the adhesive strips on the next order.

* Item C will be available first part of January.

Price Channel Positioning

New cardboard inserts have markings to aid price channel positioning — align the bottom edge of the Price Channel with the white mark on the cardboard. For older displays, use the measurements below.

1. Leave 1/4" between top edge of Channel and top of Cardboard Insert
2. 8" down - bottom edge of Price Channel
3. 16" down - bottom edge of Price Channel
4. 25.5" - bottom edge of Price Channel
5. 35.5" - bottom edge of Price Channel
6. 45.5" - bottom edge of Price Channel

4-Wing Rotating Floor Rack

Rotating Floor Racks

Note:
If you require a complete rack, you must order both the rack and the signage kit.

3RCK050	Price Channels, adhesive, pkg of 100
Order the above rack and signage :	
3SGN050	Cardboard Inserts (set of 4 for 1 rack)
3POP051E	Signage Kit - includes: 1 Header w pins & clips, 4 side strips, 4 EAB new logo cover-up decals
3POP051F	Signage Kit - includes: 1 Header w pins & clips, 4 side strips, 4 EAB new logo cover-up decals

Circular Header
(w/ pins and clips)

Logo Cover-up Decal

3POP051E/F

Retrofit Signage Kits
These include POP and hardware (except Cardboard Inserts below) needed to convert existing racks to new branding. Order Cardboard Inserts separately.

Wing Side Strip Decals

Cardboard Inserts
New Cardboard Inserts (from July 2014 onwards) have the logo printed on them, so won't require the logo cover-up decals found in the above kits. These can be used for other purposes.

These new Inserts also have Price Channel position markings for easier set-up.

4 Wing Floor Racks: Parts <

A	3RCK054	Wire Header (floor rack)
B	3RCK052	Wing Only (6-peg)
C	3RCK053	4-Wing Barrel (floor rack)
D	3RCK064	Floor Stand (c/w bearing & washer)
E	3RCK057	4" Pole Extension

For POP please see page 14-20

Depending on their design, your existing double-loop hooks will require either : (B) & (C) or (I) & (J) components. This will cover the vast majority of hanging product. Some small packaged items, and blades displayed on peg wall (e.g. diamond blades), may require some of the other single hook hardware below.

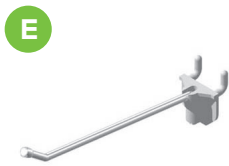

Current design Southern Imperial hooks

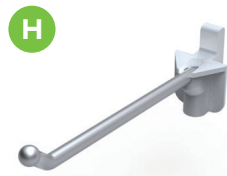

Older design Trion hooks

*Required for 4-flute Auger Bits

GONDOLA

A	3RCK119	Loop Hook, 4" with back, pkg 100.
B	3RCK328	Scan Arm, 4", pkg 100. Attaches to 3RCK119 (A).
C	3RCK329	Label Holder, 2" x 1.25", pkg 100. Attaches to 3RCK328 (B), 3RCK333 (D) and 3RCK332 (F).
D	3RCK333	Single Arm Hook w Scan Arm, 4", pkg 100. For small items that can't be hung with butterfly hooks. Use with 3RCK329 (C). These slightly longer hooks are needed for our new 4-Flute Auger Bits, to hold the larger sizes.
E	3RCK121	Single 2½" Ball Hooks for peg board, pkg 100. In the case of items such as hanging Diamond Blades, you'll need 3RCK332 (F) to display pricing next to the product.
F	3RCK332	Single Scan Arm, 4", pkg 100. For items that need pricing added next to the product, such as Diamond Blades using single ball hooks. Use with 3RCK329 (C).
G	3RCK448	Gondola Upright Stem Hook, 8", w Scanner Arm, order individually. Use with 3RCK329 (C).
H	3RCK457	Gondola Upright Single 4" Ball Hook, order individually (this is not a new item).
I	3RCK334	Scan Arm, 4", pkg 100. Attaches to older loop hooks as illustrated.
J	3RCK335	Label Holder, 2" x 1.25", pkg 100. Attaches to 3RCK334 (I).

WIRE BRUSHES

Long lasting brushes for cleaning, polishing and deburring
Carbon steel • For power drills, angle grinders and bench grinders

BROSSES MÉTALLIQUES

Brosses de longue durée pour le nettoyage, le polissage et l'ébarbage
Acier au carbone • Pour les perceuses, meuleuses d'angle et meuleuses d'établi

3SGN144E & 3SGN144F - SS GEN Wire Brushes, 12" x 4"

RECIPROCATING BLADES

For all tough construction and demolition work
High Speed Steel • Bimetal teeth • Fits all reciprocating saws

LAMES POUR SCIE ALTERNATIVE

Pour les travaux de construction et démolition intenses
Acier Rapide • Dents métalliques • S'adaptent à toutes scies alternatives

3SGN134E & 3SGN134F - SS IND Recips, 14" x 4"

DIAMOND BLADES

The right blade for every job: Segmented • Turbo • Continuous
Wet or dry cutting* • High diamond concentration • Long life

LAMES DIAMANTÉES

Une lame pour chaque tâche: Segmentée • Turbo • Continue
Coupe à sec ou à l'eau* • Haute concentration de diamants • Longue vie

3SGN369E & 3SGN369F - SS GEN/PRO/IND, Diamond Blades, 14" x 4"

ABRASIVES

The fastest, longest lasting wheels for cutting, grinding, sanding & polishing
Stainless Steel • Ferrous & Non-Ferrous Metals • Masonry

ABRASIFS

Les lames les plus rapides et de longues durées pour couper, meuler, poncer et polir
Acier Inoxydable • Métaux ferreux et non-ferreux • Maçonnerie

3SGN099E & 3SGN099F - SS PRO/IND Abrasives, 14" x 4"

OSCILLATING TOOL ACCESSORIES

Cut it. Scrape it. Sand it. Grind it. Remove it.
Fast, precision made tools designed to fit most major brands

ACCESSOIRES D'OUTIL OSCILLANTS

Coupez, meulez, raclez et sablez
Accessoires de précision pour outils oscillants

3SGN145E & 3SGN145F - EAB/SS Double-sided, PRO OTA, 14" x 4"

DIAMOND HOLE SAWS

Long lasting diamonds for fast, precise, chip-free cuts
For handheld or press drills • Must be used with water

SCIES EMPORTE-PIÈCES DIAMANTÉS

Diamants durables pour des coupes rapides et précises sans fragments
Pour perceuses à main ou à colonne • Doit être utilisé avec de l'eau

3SGN372E & 3SGN372F - SS GEN & PRO Diamond HS, 12" x 4"

With only a couple exceptions, all headers are now single-sided - either English or French.

EAB Exchangeable Saw Blades
Cashier Instructions

Identifying an EAB Exchangeable Blade
All new EAB exchangeable blades have a similar look, displaying the exchange message and Cash Code on the front, and Transaction Codes on the back.

Transaction Codes
Every EAB Saw Blade has two transaction codes.

UPC Purchase Code
A standard UPC bar code and number is used to track a new purchase and to identify other stock.

EAB Exchange Code
The Exchange Code is a 12-digit number beginning with 09929. It identifies the Cash Code (location) of the product and is engraved on the back of the blade. There is also a Cash Code on the back label. There is also a Cash Code on the back label.

Identifying d'une lame échangeable EAB
Toutes lames échangeables EAB ont une apparence semblable. Sur le devant, elles possèdent un message d'échange et le numéro de code à barre. Sur le dos, on trouve les codes de transaction.

Codes de transaction
Chaque lame échangeable EAB a deux codes de transaction.

Un code d'achat UPC
Un code-barres UPC standard avec numéros est utilisé pour identifier un achat et pour suivre le stock.

Code d'échange EAB
Le code d'échange est un numéro à 12 chiffres commençant par 09929. Il fait référence à la région de vente et est gravé sur le dos de la lame. Il est également présent sur l'étiquette au dos. Il y a aussi un code de code-barres.

Le code d'échange EAB est une référence à la région de vente et est gravé sur le dos de la lame. Il est également présent sur l'étiquette au dos. Il y a aussi un code de code-barres.
